**Application:** The US Government Quality Assurance office having oversight responsibility for this product has elected to perform Source Inspection and Surveillance activities during the processing of this item.

**Requirement:** All work associated with this product is subject to US Government Quality Assurance surveillance. Surveillance activities may include in-process and final inspections, witnessing test and acceptance activities. The Government Quality Representative/Office responsible for your facility has been delegated quality assurance functions for this item’s procurement and shall be notified immediately upon receipt of this order to plan those activities. The supplier shall incorporate these Government selected activities or inspection points in the process planning and shall not proceed beyond these points unless the selected activity has been completed or authorized in writing by that Government Quality Representative/Office.

Seller shall make available to the Government representative all applicable drawings, specifications, and changes thereto, related inspection and/or test equipment, and such other information as may be required to satisfactorily perform the inspections and tests required under this Purchase Contract .

In the event your facility is not serviced by Government inspection and the area Government inspection representative or agency cannot be located, immediately notify Buyer's Purchasing Department.

**Deliverable:** Evidence of completion or waiver of such Government source inspections and approvals must be shown on the shipping documents. In the event of any problems, contact your Aerojet Rocketdyne buyer.

Rev	Date	Description of Change	Changed By
0	4/06/15	Formerly Quality Notes F04, Revised to incorporate Enterprise numbering convention and standard format to include revision history.	R. Villeneuve
