

Mark Tucker
Chief Operating Officer

Mark Tucker is Chief Operating Officer for Aerojet Rocketdyne. In this role, he is responsible for leading the Engineering, Manufacturing, Supply Chain, Quality, Contracts & Pricing, Safety, Health & Environment and Information Technology organizations, as well as oversight of the company's 11 operating sites in nine states.

Mr. Tucker is also responsible for the company's Competitive Improvement Program that is a comprehensive internal restructuring program focused on maximizing the company's assets and driving significant cost efficiencies. The program includes optimizing the utilization of all property, plant and equipment, driving down product costs through direct labor and material savings, reducing overhead, and General & Administrative cost savings.

He is actively involved in the aerospace and defense industry and has been for the past three decades. His career encompasses 30 years with Northrop Grumman, where he held vice president positions in Operations, Supply Chain Management, Program Management and Competitive Capture Pursuits.

Mr. Tucker earned his Bachelor of Science in Aeronautical Operations from California State University, San Jose, and a Master of Business Administration from California State University, Long Beach. He is a graduate of the Executive Marketing Program at the University of California, Los Angeles and also a graduate of the Executive Financial Analysis Program at Wharton School of Business, University of Pennsylvania.
