

August 2, 2019

Dear Valued Supplier,

As a result of changes to government regulations affecting small business programs, Aerojet Rocketdyne, Inc. (AR) is required to report to the government all procurement spend whether in support of direct customer programs or its own internal ("indirect") purchases. To do this, AR needs to properly identify suppliers in its automated system with their associated business size(s) (e.g., large business or small business). For small businesses, multiple subcategories are identified and must be properly reported.

AR uses the Annual Business Certification to collect supplier information when we set up a new supplier and annually thereafter. A review of our records indicates that we do not have a current ABC on file for your firm.

Please access the updated ABC available on our public internet site at www.rocket.com in the SupplierNet section click on doing business with Aerojet Rocketdyne under forms, available at this link.

Please return the completed form to Aerojet Rocketdyne using one of the following methods:

- **Mail to:**
Bldg. 20-019/MS 1004
PO Box 13222, Sacramento CA 95813-6000
Attention: Procurement Compliance Administrator
- **FAX to:** (916) 355-3292
- **E-Mail to:** AerojetRocketdyneSupplyChain@Rocket.com

Your immediate attention to this request would be greatly appreciated so that we can process the additional forms prior to the annual government reporting cycle that occurs in October.

If you have any questions about this request, please contact your AR buyer.

Thank you for your support,

A handwritten signature in blue ink that reads "Mariel Dennis".

Mariel Dennis
Director, Supply Chain Compliance
