

Title:

FIRST ARTICLE INSPECTION PLAN - PRIOR TO SHIPMENT OF PRODUCT

Aerojet Quality Note

F07

Rev #

1

Date

09/25/2015

First Article Inspection shall be in accordance with AS9102 current revision. The First Article Inspection Plan must be submitted and approved by Aerojet Rocketdyne prior to shipment.

The sole purpose of an advance review of the FAI Plan is to confirm the supplier will measure all applicable part characteristics per specifications.

Purchase Orders require a FAI Plan if:

- *product has not been manufactured in a 12 month period (note this deviates from AS9102);*
- all other trigger events listed in AS9102 Section 5 apply.

For Aerojet Rocketdyne Purchase orders supporting Camden, Gainesville, Orange, Sacramento and Vernon sites, the Supplier shall utilize the [Supplier Submittal Request \(SSR\)](#) Form to communicate the documentation required above.

For Aerojet Rocketdyne Purchase Orders supporting Redmond Washington: Submit FAI Plan via email to the Aerojet Rocketdyne buyer.

Aerojet Rocketdyne Deliverable: Written acceptance of the FAI Plan shall be sent to the supplier.

This document is an integral part of the contract (purchase order) in which referenced. **Applicable Revision:** The revision in effect at the time the purchase order is placed.
