

D01: Supplier Assigned Serial Numbers

Effective Date: 11/14/2019

The seller shall assign serial numbers to all delivered items. All goods, including spares, test units, etc., with a single basic family number will be assigned sequential numbers regardless of configuration (dash numbers). Serial numbers shall not be duplicated and shall provide full traceability to all material, fabrication, assembly, inspection and test documentation.

Deliverable:

The packing slip shall show a list of all serial numbers included in the shipment.
