

H03: O-Ring Packaging**Effective Date: 11/14/2019**

O-rings shall be packaged one (1) unit per package in a manner that will prevent moisture damage, foreign matter or contamination prior to use by Aerojet Rocketdyne. No part substitution is allowed without Aerojet Rocketdyne written approval. The individual packaging must be marked with:

- Aerojet Rocketdyne Stock Item Number (if applicable)
- Manufacturer's Part Number (if different from Aerojet Stock number)
- Material specification number and revision level
- Manufacturer's name
- Quarter and year of manufacture/cure date
- Manufacturer's batch number
- Seller's name
- Shelf-life or expiration date (if applicable)

No foreign material is allowed on O-rings, i.e. powder or lubricant.

For Purchase Orders originating at Aerojet Rocketdyne in Redmond, WA, material supplied against this PO shall be packaged in accordance with SAE ARP-5316.
